

GAinS Investigators Meeting

**T S Eliot Lecture Theatre
Merton College, Oxford**

Wednesday 1st May 2013

Programme

- 09.00 – 09.45 Coffee
- Chairman: Dr C. Garrard**
- 09.45 – 10.00 Introduction and welcome
Prof. Charles Hinds
- 10.00 – 10.20 Genome-wide and candidate gene associations with outcome from sepsis
Dr Anna Rautanen
- 10.20 – 10.40 Genetic influences on sepsis susceptibility
Tara Mills
- 10.40 – 11.00 Rare genetic variants and susceptibility to infectious disease
Dr Kate Elliott
- 11.00 – 11.30 Coffee
- Chairman: Dr J. Knight**
- 11.30 – 12.00 Patterns of gene expression in sepsis
Dr Jay Radhakrishnan
- 12.00 – 12.30 Genetic determinants of gene expression in sepsis
Emma Davenport
- 12.30 – 13.00 Influence of vitamin D on gene expression and outcome in sepsis
Dr Antonio Berlanga-Taylor
- 13.00 – 14.30 Lunch **(GenOSept Management Committee meeting)**
- Chairman: Prof. C.J. Hinds**
- 14.30 – 15.00 Influence of telomere length on sepsis susceptibility and outcome
Dr Latha Ramakrishnan

15.00 – 15.30	Patterns of gene expression to identify patients at risk of acquired infections Dr Michael O'Dwyer
15.30 – 16.00	The PROGRESS Consortium: Genetic susceptibility to community acquired pneumonia and its severe manifestations Professor Trinad Chakraborty and Dr Hamid Hossain
16.00 – 17.30	Tea
18.30 – 19.15	Pre-dinner drinks
19.15	Dinner
